# 40kWh Foldable Container for Wastewater Treatment Plants

What is a containerized wastewater treatment plant?

A containerized wastewater treatment plant is a wastewater treatment system that is fully integrated into a container. For uncomplicated and fast transportation, we use 10, 20 and 40-foot shipping containers in accordance with the international ISO standard for our KLARO container systems.

What is a ClearFox® containerized wastewater treatment plant?

ClearFox® containerized wastewater treatment plants offer a highly cost-efficient solution with low capital and operating expenses, as they require no extensive planning, civil works or permanent buildings. The system only needs to be placed on a solid base and connected.

What is a water treatment plant in container?

A water treatment plant in container is a complete solution, assembled and tested off-site at our factory. The solution is complete with all internal piping and wiring factory-built. This makes the plant ready for use when supplied, which financially can be an advantage, also in relation to the reduced amount of time used for deployment.

How many m<sup>3</sup> of wastewater can a containerized wastewater treatment plant handle?

We have experience with containerized wastewater treatment plants for up to 1,380 PE or 207 m<sup>3</sup> of wastewater per day. A wastewater treatment plant is only as effective and efficient as the installed system.
