
40mw energy storage power station in Pecs Hungary

Where is Hungary's largest battery energy storage system located?

Swiss-based energy company MET Group has officially inaugurated Hungary's largest standalone battery energy storage system (BESS) at its Dunamenti Power Station in Székesfehérvár, located close to Budapest. The new facility boasts a total power output of 40 MW and a storage capacity of 80 MWh.

How much power does met have in Hungary?

The new facility boasts a total power output of 40 MW and a storage capacity of 80 MWh. This project significantly expands MET Group's energy storage portfolio in Hungary. It joins a smaller 4 MW / 8 MWh demonstrator BESS, which utilizes Tesla Megapack 2 batteries and was installed at the same site in 2022.

What is Hungary's largest gas-fired power station?

The Dunamenti Power Station is described as Hungary's largest gas-fired power station. The facility has been majority owned by MET Group since 2014, which has supported its transformation into an energy transition cluster. It also features a 21-MW solar plant, which was launched in 2018.

How met group contributes to the energy transition in Hungary?

On site at the Dunamenti Power Station in Székesfehérvár, MET already installed a 4 MW / 8 MWh demonstrator plant based on Tesla Megapack 2 batteries in 2022. With this latest BESS plant which went into operation today, MET Group and the Dunamenti Power Station are further strengthening their contribution to the energy transition in Hungary.

Hungary's largest operating standalone battery energy storage system (BESS) has been inaugurated today: MET Group put into operation a battery electricity storage plant with ...

MET Group installed a battery energy storage system of 40 MW and a two-hour duration at its gas power plant Dunamenti near Budapest.

MET Group has officially commissioned Hungary's largest standalone battery energy storage system (BESS), marking a major milestone in the country's journey toward a ...

Hungary has taken a significant step forward in its energy transition with the inauguration of its largest standalone battery energy storage system (BESS). Located near ...

Swiss-based energy company MET Group has officially inaugurated Hungary's largest standalone battery energy storage system (BESS) at its Dunamenti Power Station in ...

The Dunamenti Power Station is described as Hungary's largest gas-fired power station. The facility has been majority owned by ...

MET Group installed a battery energy storage system of 40 MW and a two-hour duration at its

gas power plant Dunamenti near ...

/BUDAPEST, HUNGARY, June 19, 2025, 10:00 CET, MET Group/ Hungary's largest operating standalone battery energy storage ...

In recent years, electrochemical energy storage system as a new product has been widely used in power station, grid-connected side and user side. Due to the complexity of its application ...

Hungary's largest operating standalone battery energy storage system (BESS) has been inaugurated today: MET Group put into ...
