# Australia Outdoor Power

What is Australian outdoor power equipment Association?

We are the peak national body for the Australian outdoor power equipment industry- your essential partner and influential industry voice. We're on a mission to promote, grow, and protect the outdoor power equipment industry we all value and depend on. Our community relies on our members, and our members rely on us.

Who is outdoor power group?

Outdoor Power Group (OPG) is a wholly Australian owned business founded in 1997 selling a wide range of Outdoor Power Equipment designed for Australian conditions. We have a national presence supplying every state and territory with high quality outdoor power products through a comprehensive dealer network.

How much power does an outdoor power point need?

The AS/NZS 3000 mandates that outdoor power points must be supplied by branch circuits rated at least 20 amperes, ensuring adequate power for common outdoor equipment and tools. When planning circuit loads, each outdoor power point should be calculated based on anticipated usage patterns.

What is the right circuit capacity for outdoor electrical outlets?

Determining the right circuit capacity for outdoor electrical outlets requires careful consideration of anticipated loads and Australian Standards requirements. The AS/NZS 3000 mandates that outdoor power points must be supplied by branch circuits rated at least 20 amperes, ensuring adequate power for common outdoor equipment and tools.
