
Australian Waterproof Photovoltaic Container Manufacturer

Who makes shipping container solar panels?

Fleet Containers ensures the highest quality in our shipping container solar panel installations. We work with trusted suppliers and manufacturers who adhere to industry standards and provide reliable and efficient solar panels.

What is a solar powered shipping container?

At SCS Australia, we create solar powered shipping containers that combine renewable energy technology with the strength and mobility of a shipping container. These self-sufficient units are ideal for powering off-grid operations, mobile businesses, events, and remote projects--all while reducing carbon footprint and cutting energy costs.

What is a solar container build?

It's a modified shipping container built to house solar panels, batteries, inverters, and other off-grid power systems. These units are ideal for powering remote sites, construction camps, emergency setups, or as a portable backup energy system. What's included in a solar container build?

Are shipping container solar panels durable?

Durability and Low Maintenance: Solar panels are designed to be durable and require minimal maintenance. Once installed, they can operate efficiently for decades with minimal upkeep. Fleet Containers ensures the highest quality in our shipping container solar panel installations.

We design and build shipping containers featuring integrated solar systems that can be used to provide microgrid energy solutions.
