
Brunei villa solar panel factory direct sales

Are solar panels legal in Brunei?

At the moment, there is no regulatory governing the installation of solar panel in Brunei.

Companies follow international standards for solar PV systems that convert solar energy into electrical energy, as well as for all the elements in the entire system.

Who owns the solar plant in Brunei?

The solar plant in Brunei is currently operated and maintained by BSP. Agnete Johnsgaard-Lewis, BSP Managing Director and Shell Country Chair in Brunei, shared this information.

How much energy can a solar power system produce in Brunei?

For a 10 kW solar power system and capacity factor of 13% (for Brunei), such system can produce approximately 227,760 kWh of energy over their lifespan ($10 \times 13\% \times 24h \times 365 \text{ days} \times 20 \text{ years}$). As Brunei uses block electric tariff, electricity tariff of BN\$0.06 per kWh will be used in calculation.

Can a solar farm be developed in Brunei?

The new solar farms may be developed through public-private partnerships as the ministry seeks to reduce the government's financial burden. Brunei has set a target of generating 100 MW of solar energy by 2025 as part of the government's initiative to slash greenhouse gas emissions by 20 percent over the next 10 years.
