## Cameroon Solar Site 372KWh

Are solar power plants a reality in Cameroon?

The facilities, which have been in service for several months, serve the northern part of Cameroon. Large-scale solar energy production is now a reality in Cameroon. On Friday 22 September 2023, Cameroon's Minister of Water and Energy Gaston Eloundou Essomba inaugurated two photovoltaic solar power plants in the Far North and North regions.

Who owns Maroua & Guider solar power plants?

These are the first large-scale photovoltaic solar energy production facilities. The electricity produced by the Maroua and Guider solar power plants is therefore supplied to Eneo, the public utility majority-owned by the British investment company Actis. Maroua Guider Solar Company is said to have invested CFA 17 billion, or nearly EUR26 million.

How much money did Maroua Guider solar invest?

Maroua Guider Solar Company is said to have invested CFA 17 billion, or nearly EUR26 million. Both projects benefited from an EUR11 million guarantee from BGF Bank, a banking group based in Libreville, Gabon.
