
Columbia solar tiles

What are solar tiles?

Solar tiles are roofing materials that can produce energy directly from sunlight. Solar tiles are integrated into the roof itself and function as both a roofing substance and a source of energy, as opposed to conventional solar panels, which are mounted on top of an existing roof.

What are volt solar roof tiles?

Volt solar roof tiles generate clean energy while preserving your home's design. The system replaces traditional roof tiles with solar technology that sits within the roofline. The result is seamless integration without visible panels or bolt-ons. Understand Volt. Paired roof tiles. Partner with Volt to bring solar roof tiles to your projects.

What is a concealed solar roof tile system?

A Concealed solar roof tile system that generates clean energy without altering the design of your home. Volt is purpose-built for tiled roofs, making it ideal for new homes or premium re-roofing projects. Works with Bristle Roofing profiles to match a range of tile designs and colours. Your solar system becomes part of the roof, not an add-on.
