# Construction of wind solar and energy storage project in Vanuatu

Will solar power boost Vanuatu's energy independence and climate resilience?

The project aims to support the use of solar power and battery storage on the islands of Efate and Tanna,boosting Vanuatu's energy independence and climate resilience.New Zealand's Deputy Prime Minister and Minister for Foreign Affairs,Winston Peters,confirmed the country's commitment during a press conference held in Port Vila on Wednesday.

How can Vanuatu benefit from solar power?

With this project,17,000 households throughout Vanuatu will be supported to access non grid,renewable electricitythrough solar. With low population densities and large distances between communities,a key challenge for the project has been providing access to electricity in a way that is cost effective and efficient.

What is Vanuatu's national energy road map?

Through its National Energy Road Map and in line with the goals of its Nationally Determined Contribution (NDC) under the Paris Agreement, Vanuatu aims for 100 percent rural electrification and a total transition to renewable energy by 2030.

Will New Zealand help build resilience in Vanuatu?

We are pleased to announce that New Zealand will also be the lead donor to RESSET,a renewable energy project on Efate and Tanna. Together with initiatives like these,we continue to work together to build resilience in Vanuatu's long-term development," Mr. Peters said.

Through its National Energy Road Map and in line with the goals of its Nationally Determined Contribution (NDC) under the Paris Agreement, Vanuatu aims for 100 percent ...

The New Zealand Government will take the lead in helping Vanuatu move towards 100% renewable energy by 2030 through a ...

The Governments of New Zealand and Vanuatu have signed a Partnership Arrangement to advance the Renewable Energy Solar and Storage on Efate and Tanna ...

In Port Vila and Tanna, a partnership with New Zealand's Ministry of Foreign Affairs and Trade (MFAT) is delivering solar PV and battery storage systems, including a ...

The paper examines whether Vanuatu's most populated and energy-intensive island could reach the 100 % renewable energy goal cost-effectively and affordably. Different ...

Union Electrique Du Vanuatu Limited (UNELCO) plans to build an innovative 3 MWp solar PV plant, with an estimated investment of VT 300 million. The project is set to be ...
