# Cost of outdoor mobile power box in Democratic Republic of Congo

What is the electricity price in Democratic Republic of the Congo?

The residential electricity price in Democratic Republic of the Congo is CDF 166.611 per kWh or USD 0.057. The electricity price for businesses is CDF 194.400 kWh or USD 0.067. These retail prices were collected in September 2024 and include the cost of power, distribution and transmission, and all taxes and fees.

Is there an interconnected national power transmission network in the DRC?

There is no interconnected national power transmission network in the DRC, which is instead structured into three independent interprovincial grids. The western and southern grids are connected by a High Voltage Direct Current (HVDC) line. The eastern grid is more remote and will not be connected.

How will the DRC meet the ELEC-Tricity challenge?

The DRC aims to connect 32% of the country to electricity by 2030. Meeting this challenge will require co-ordinated efforts from various stakeholders, supportive policies and regulations, and technical assistance support to prospective projects in order to attract investments.

How much e-waste does the DRC produce?

The DRC is expected to produce 16,050 tons of electrical and electronic waste, according to a study carried out by the Belgian group, Groupe One. There are currently no regulations or legislative frameworks concerning e-waste.
