# Croatia Solar System

Why did Zagreb get a replica of the Solar System?

The planets are made of stainless steel and are of different sizes on the same scale as The Grounded Sun. As a result, Zagreb got its own replica of the solar system shown on a greatly reduced scale. The distance between the Sun and the planet installations is correlated to the distance between planets and the Sun in our solar system.

Where is the Sun located in Zagreb?

The Grounded Sun is situated in the center of Zagreb, and Nine Views consists of planets scattered around the city. What is most fascinating about these installations is that the sun and planets were sculpted and positioned in relation to each other to scale, matching the solar system.

What is Croatia's solar energy potential?

Croatia's solar energy potential estimated at 6.8 GW. Balkan Green Energy News. Retrieved 18 March 2022. ^Spasic, Vladimir (10 November 2021). "Croatia to add 1.5 GW of renewables by 2025". Balkan Green Energy News. Retrieved 18 March 2022.

Is Zagreb a replica of the Sun?

Most people who have visited Zagreb have likely seen The Grounded Sun, whether they knew it was a replica of the sun or not since it is large and centrally located. Fewer are familiar with the locations of the other planets. To help you find all the planets, we've put together a map with the addresses of all installations.
