
Does the Accra factory have 5G solar container communication stations

Will NGIC be able to deliver 5G services in Ghana?

Full nationwide coverage, including rural areas, is targeted for completion by 2026. By leveraging NGIC's infrastructure, telecommunications providers can swiftly deliver 5G services, fostering growth, innovation, and digital inclusivity across Ghana.

Who builds the shared 4G & 5G infrastructure?

The shared 4G and 5G infrastructure will be built by Nokia and Radisys, with IT architecture and integration provided by Microsoft and Tech Mahindra. This collaboration ensures that we leverage cutting edge world-class expertise and technology to build a robust digital infrastructure.

Why is NGIC launching 5G?

This 5G launch by NGIC and its partners marks a new chapter for Ghana, underscoring a shared commitment to technological innovation, economic empowerment, and sustainable development for all Ghanaians. About NGIC

When is NGIC launching 5G services in India?

Mrs Owusu-Ekuful revealed that the partnership was officially signed in Mumbai, India, on May 27, 2024, culminating a process that began over two years ago, and was finally time for the NGIC to roll out its 5G services within the next six months.

News services say NGIC boasts 16 5G-ready cell sites, with its core network successfully inspected by the National Communications Authority (NCA). However, according ...
