# Enterprise Uninterruptible Power Supply

What is an uninterruptible power supply (UPS)?

Uninterruptible power supplies (UPS) are essential to ensure you have continuous power during a power outage. From a small UPS to save and shut down your PC, to large commercial systems that power large data centers or critical systems in hospitals, we have the solutions you and your customers demand.

Why should you choose Mitsubishi Electric uninterruptible power supplies?

At 99.9995%, Mitsubishi Electric Uninterruptible Power Supplies achieve the highest equipment reliability among all UPS suppliers, ensuring you - and your customers - are protected against downtime 24/7/365.

What is a three-phase online modular uninterruptible power supply system?

Three-Phase online modular uninterruptible power supply systems from the Modulon UPS family offer scalability and redundancy in a single frame, with up to 600 kVA. Delta's UPSs are some of the most advanced in the industry, renowned for their innovation, reliability, and efficiency.

Is Eaton a reliable backup power supply?

Eaton is a leading provider of backup power UPS, or uninterruptible power supply. Eaton UPSs deliver high quality, reliable backup power for everything from network closets and server rooms to enterprise and colocation data centers.
