## Factory price single breaker in Sydney

How much does a 240V circuit breaker cost?

A 240V circuit breaker, for example, can cost between \$10 and \$250. Factors that can contribute to the expense of installing a new circuit breaker include extensive drywall demolition and restoration, or running the wire up through multiple stories. The estimated cost for installing a dedicated circuit ranges from \$250 to \$900.

How much does rewiring a circuit breaker cost?

The cost of rewiring a circuit breaker depends on factors such as wiring type, length, and any necessary wall and drywall repair, ranging from \$150 to \$1,000+. The primary function of circuit breakers is to protect your electrical system from damage caused by overcurrent, short circuits, or ground faults.

Are circuit breakers safe in Australia?

Yes, all our circuit breakers comply with Australian standards, including AS/NZS 3000:2018, ensuring they meet the necessary safety and performance requirements for electrical installations in Australia. Can I use these circuit breakers in a caravan or RV? Absolutely.

How much does a circuit breaker cost?

The cost of the circuit breaker itself can range from \$15 for a basic single-pole breaker to over \$100 for a specialty breaker. Keep in mind that these prices can vary based on the brand and where you purchase the breaker. It's also worth noting that while it might be tempting to opt for the cheapest option, quality should not be compromised.
