
France Lyon New Energy Storage Agency

Who is delivering a battery energy storage system in France?

China's Envision Energy has been selected by Kallista Energy to deliver a 120 MW/240 MWh battery energy storage system (BESS) in Saleux, northern France. The project represents Envision's first independent storage contract in the French market and signals its continued European expansion.

What is Envision Energy's first independent battery energy storage contract in France?

After previous triumphs in Europe, this project represents Envision Energy's first independent battery energy storage contract in France. Envision Energy will provide a minimum of a 14-year long-term maintenance (LTSA) agreement, starting construction in June 2025, ensuring ongoing presence in the area once the construction phase is complete.

Where will Envision Energy deliver a 120 MW/240 MWh battery energy storage system?

Envision Energy has signed its first independent energy storage contract in France, under which it will deliver a 120 MW/240 MWh turnkey project in Saleux for Kallista Energy. China's Envision Energy has been selected by Kallista Energy to deliver a 120 MW/240 MWh battery energy storage system (BESS) in Saleux, northern France.

Is France a key market for Envision Energy?

Henry Peng, Senior Vice President and President of Latin America and European Region, Envision Energy, said: France is a key market for Envision Energy as we expand our presence across Europe, and our partnership with Kallista Energy marks a significant milestone in this journey.

SunContainer Innovations - Summary: The Lyon energy storage project in France represents a cutting-edge initiative to integrate large-scale battery systems with renewable energy sources.
