
Global shipments of lithium-ion batteries for energy storage

On May 20, 2025, InfoLink Consulting released its Q1 2025 Global Energy Storage Supply Chain Database, reporting global energy ...

The "Li-ion Battery and Manufacturing Equipment - 2024" report from Interact Analysis states that global shipments of Li-ion batteries surged by 38.8% year-on-year in ...

As a result, global energy storage battery shipments (ESS LIB) reached 369.8GWh, marking a 64.9% year-on-year increase. In the ...

Recently, research institution EVTank and China YiWei Institute of Economic jointly released the "White Paper on the Development of China's Li-ion Battery (LIB) Industry ...

The latest update to its Global Li-ion Battery and Battery Manufacturing Equipment data by Interact Analysis reveals energy ...

On May 20, 2025, InfoLink Consulting released its Q1 2025 Global Energy Storage Supply Chain Database, reporting global energy storage cell shipments of 99.58 ...

The significant increase in global ESS shipments also reflects broader trends in energy policy and market dynamics. Government incentives and mandates for renewable ...

The global energy storage market almost tripled in 2023, the largest year-on-year gain on record. Growth is set against the backdrop of the lowest-ever prices, especially in China where ...

The latest update to its Global Li-ion Battery and Battery Manufacturing Equipment data by Interact Analysis reveals energy storage (ESS) battery shipments are expected to ...

According to InfoLink's global lithium-ion battery supply chain database, energy storage cell shipments reached 202.3 GWh in the first three quarters of 2024, up 42.8% YoY. ...
