
Guyana plans hybrid solar power station

In a recent interview with The New York Times, Guyana's President Irfaan Ali made bold claims about his country's commitment to a clean energy transition, funded by its ...

Therefore, this solar project, which includes batteries for power storage, will ably meet the demand and cater to any growth in the ...

Guyana's largest hybrid solar-plus-storage facility strengthens national energy security
BnAmericas Published: Monday, November 03, 2025 Photovoltaic Energy Storage

ONDERNEEMING, Essequibo Coast -- Region Two (Pomeroon-Supenaam) has taken a major step toward energy sustainability with the commissioning of the \$2.2 billion ...

The goal: a stable, sustainable, and inclusive energy future powered by a balanced mix of solar, hydro, gas, and wind. A Smarter, Greener Grid Kesh Nandlall, Leader of ...

Sustainable energy generation in Region Two has taken a significant leap with the commissioning of the US\$10.4 million (\$2.2 billion) 5 megawatt peak (MWp) Onderneeming ...

The Leguan solar farm will deliver significant benefits to the local community. Over 3,000 residents will gain access to solar energy, enhancing their quality of life and reducing ...

Nandlall said the site is not just another solar array -- it stands as Guyana's largest hybrid solar-plus-storage power station, featuring a cutting-edge 7.5 MWh Battery Energy ...

Onderneeming Solar Farm (Region Two): A 5 MWp solar farm at Onderneeming was commissioned on November 2, 2025. This project is Guyana's largest hybrid solar-plus ...

Guyana is working to expand its renewable energy infrastructure and can focus on hybrid systems to integrate wind energy, solar energy, hydro power, biomass and natural gas ...
