What is the power supply industry in Spain?

With a focus on reliability and energy efficiency, their products range from 350 VA to 6,400 KVA, making them suitable for various sectors such as healthcare, IT, and large infrastructures. When exploring the Power Supply industry in Spain, several key considerations come into play.

How does an uninterruptible power supply work?

The uninterruptible power supplies have e.g. an adjustable maximum buffer time to protect the battery and the unit protects the battery from going into a deep discharge. Draining the battery all the way down can damage it in a very short period of time, especially if this occurs multiple times.
