
Huawei Australia Solar PV Panels

Is Huawei a good company to buy a solar inverter?

Huawei is a Chinese company that provides information and communication technology, smart devices, and solar products. The company offers inverters that are battery-ready, cost-effective, and efficient. It also offers Smart Energy Storage System SUN2000-450W-P optimisers and the FusionSolarApp.

When did Huawei start making solar inverters?

Huawei started manufacturing an efficient and lightweight residential solar inverter in 2018. In 2020, they started selling 2nd generation residential hybrid inverters, a compact optimiser and different types of 3-phase inverters. FusionSolar Huawei products focus on energy management systems and smart inverters.

Do Huawei iStore solar inverters work in Australia?

The iStore solar inverters (and batteries) operate like the Huawei versions and also look just like them too. That's because Huawei make inverters for the Australian market for iStore; and inverter data is securely stored locally in Australia, not in China.

Do Huawei solar inverters have warranty?

That's because Huawei make inverters for the Australian market for iStore; and inverter data is securely stored locally in Australia, not in China. As I consider iStore to be a reliable company, you shouldn't have any issues with the warranties for these new products. Huawei solar inverters have 10 year warranties.
