
Is it safe to bring an solar container outdoor power to Sydney Australia

What is a solar powered shipping container?

At SCS Australia, we create solar powered shipping containers that combine renewable energy technology with the strength and mobility of a shipping container. These self-sufficient units are ideal for powering off-grid operations, mobile businesses, events, and remote projects--all while reducing carbon footprint and cutting energy costs.

Are solar containers safe?

Yes-- all solar containers are built from weatherproof, lockable shipping containers. Your gear is safe from the elements and secure from unauthorised access. Can the system be expanded later on?

Is Australia Post safe?

At Australia Post, safety is our priority. It's important you're aware some substances can't be posted for delivery within Australia or overseas. Many common items contain prohibited substances that may be explosive, flammable, radioactive or otherwise dangerous. Examples include: Not sure about your item?

What is a solar container build?

It's a modified shipping container built to house solar panels, batteries, inverters, and other off-grid power systems. These units are ideal for powering remote sites, construction camps, emergency setups, or as a portable backup energy system. What's included in a solar container build?
