## Latest power battery pack

What is a battery pack?

Battery packs, also known as power banks or portable chargers, provide the extra juice needed to keep our devices running when power outlets are out of reach. Imagine you're on a long hike, capturing stunning photos with your camera, or using your GPS to navigate. Suddenly, your device's battery is running low, and there's no outlet in sight.

Which battery brand is best for power banks?

Anker makes the best power banks we have tested so far, but batteries from Baseus and Iniu also performed well. All of the power banks on this list passed our testing, traveling with us on the road and powering our devices at home. Which brand is best for power banks in 2025? Anker is making some of the best power banks right.

How much power does a portable battery pack have?

Medium capacity power banks--best for multiple smartphone recharges or tablets--range from 6000mAh to 15000mAh. High-capacity power banks--best for extended travel or computers--range from 16000mAh to 30000mAh and above. Power output determines the overall power of your portable battery pack.

What makes a good battery pack?

Some battery packs come with built-in cables, stands, or informative displays that show charging status and battery levels. Others might offer app connectivity for locating the power bank or optimizing charging performance. These extra features can add significant value and convenience.
