
Main circuit breaker factory in Botswana

How many electrical engineers are there in Botswana?

With headquarters in Gaborone and a branch in Francistown, our workforce exceeds 200 skilled professionals across engineering, administration, and technical services. We remain committed to training and employing local talent, fostering growth and expertise within Botswana's electrical sector.

Why did we start a branch in Gaborone and Francistown?

Recognizing the industry's reliance on foreign suppliers, we expanded in 1977 to establish a retail division, supplying high-quality electrical products and equipment to Botswana's growing contracting industry. This led to the opening of branches in Gaborone and Francistown, strengthening our national presence.
