# Manchester UK container generator manufacturer

What is a containerised generator?

Our Containerised Generators deliver robust, high-capacity power from 300-3,000 kVA in secure, weather-resistant enclosures. Designed for challenging environments and critical applications, they offer noise reduction, easy transport, and bespoke configuration to meet your site's exact needs.

Can JPC supply a high power containerised generator unit?

JPC can also supply a high power containerised generator units. Which by widening the ISO container to accommodate a larger generator unit; these larger containerised generator unit can still be lifted into place using standard crane methods with standard locking corner casting positions for road transport.

What is an ISO containerise generator unit?

A 'standard' ISO containerise generator unit denotes an installation where the original lifting points and dimensions of the intermodal container are left unchanged.

What is an electrical generator?

Electrical generators are pieces of critical power equipment that provide electricity when power from the power grid is unavailable. Interestingly enough, generators don't actually create electricity.

Standard 20' Sizes Extended Or Modified 20' Sizes and High Cube 9'6" Extended Or Modified 40' Sizes and High Cube 9'6" Non Standard Sizes Bespoke JPC can also supply a high power containerised generator units. Which by widening the ISO container to accommodate a larger generator unit; these larger containerised generator unit can still be lifted into place using standard crane methods with standard locking corner casting positions for road transport.
