
Mauritania solar plant solar container battery

How will Mauritania's new solar power project help agri-food industry?

The project will provide rural electrification for 40 localities in south-eastern Mauritania, through the installation of hybrid mini photovoltaic power plants and the construction of connecting lines. The project will also support value-creating activities, especially in the food cold chain and agri-food processing.

What is Mauritania doing now?

Mauritania has just inked its first independent power producer contract which is a \$300 million agreement that was signed with Iwa Green Energy that will foresee the development of the 60-megawatt Mauritania Hybrid Solar-Wind Plant. Furthermore, the renewable energy project marks a milestone in Mauritania.

How does the PIEMM project work in Mauritania & Mali?

The PIEMM will boost solar energy production and provide access to electricity for more than two million people in Mauritania and Mali, while also enhancing regional integration and trade. The project is financed by a \$272 million loan from the African Development Fund, the concessional window of the AfDB, and a \$1.5 million grant from the GCF.

Why is Mauritania partnering with private actors?

"Undertaking this project with private actors showcases their confidence in the Mauritanian government's commitment to diversifying the production base and providing sustainable energy sources to serve the economy," stated the Economy and Finance Minister Sid'Ahmed Ould Bouh at the signing ceremony in Mauritania's capital, Nouakchott.

News flash Mauritania has signed a a \$300 million PPA agreement with Ewa Green Energy to build a hybrid power plant ...

Mauritania inked its first independent power producer contract--a USD 300m, 60-MW solar-wind hybrid with Iwa Green Energy--to strengthen supply and cut fuel imports.

Mauritania has just inked its first independent power producer contract which is a \$300 million agreement that was signed with Iwa Green Energy that will foresee the ...

News flash Mauritania has signed a a \$300 million PPA agreement with Ewa Green Energy to build a hybrid power plant consisting of 160MW solar, 60MW wind and ...

Mauritania has signed its first public-private partnership (PPP) in the energy sector for the construction of a hybrid solar and wind facility. The government has entered into an ...

The first project, the 225 Kv Mauritania-Mali electricity interconnection and associated solar power plants development project ...

IGE, developer of Mauritania's largest renewable energy plant to date, has signed a \$300m

deal with Nouakchott. African Energy reports on the groundbreaking deal and its low ...

Mauritania and France signed a EUR39.2m deal to fund 10 solar power plants with battery storage to boost energy access and improve grid reliability.

Summary: On 12 August 2025, Mauritania's Minister of Energy and Petroleum, Mohamed Khaled, announced a strategic renewable energy project with a total investment of \$287 million, aimed ...

The first project, the 225 Kv Mauritania-Mali electricity interconnection and associated solar power plants development project (PIEMM), is part of the AfDB's Desert to ...
