
New Delhi Energy Storage Fire Solution

Where is India's first commercial-scale battery energy storage system located?

Delhi's Power Minister Ashish Sood on Thursday inaugurated India's first commercially approved and South Asia's largest standalone utility-scale Battery Energy Storage System (BESS), developed by BSES Rajdhani Power Limited at the 33 kV Kilokri Substation in New Delhi.

Why should India invest in a Bess storage facility?

With a significant increase in renewable energy generation capacity, it is imperative that storage facilities are developed to help India and the world transition to clean energy. With an annual tariff nearly 55% lower than the previous benchmark, the project sets a new standard for BESS affordability in India.

What does Sood's energy project mean for India?

Sood termed the project a historic milestone in the energy sector, both for Delhi and the country, noting that the system sets a new benchmark in regulatory and technological innovation across India.

Does indigrid have a battery energy storage system?

IndiGrid has announced the commissioning of the country's first regulated utility-scale standalone Battery Energy Storage System project.

Why New Delhi Can't Keep the Lights On You've probably seen the headlines - power cuts lasting 8+ hours during Delhi's brutal summer heatwaves. In June 2024 alone, peak electricity

...

Energy Storage Fire Protection: Policy-Driven and Essential for Safety Energy Storage Fire Safety Standards Still Underdeveloped, Hindering Industry Growth Compared ...

This project represents a step forward in that direction, reinforcing our commitment to advancing the country's energy infrastructure with innovative and sustainable solutions." ...

New Delhi | 08 May 2024 -- In a significant step forward for India's energy transition, the Delhi Electricity Regulatory Commission (DERC) has granted regulatory approval of India's first ...

NEW DELHI | 8 May, 2025 -- The GEAPP Leadership Council (GLC) today officially announced the launch of India's first utility-scale, standalone Battery Energy Storage System (BESS) ...

Energy Storage Fire Protection: Policy-Driven and Essential for Safety Energy Storage Fire Safety Standards Still Underdeveloped, ...

NEW DELHI, India - October 31, 2025 - Sungrow, the global leading PV inverter and energy storage system (ESS) provider, unveiled a suite of cutting-edge innovations at REI ...

NEW DELHI | 8 May, 2025 -- The GEAPP Leadership Council (GLC) today officially announced the launch of India's first utility-scale, standalone ...

Explore advanced fire safety solutions for energy storage systems, including fire suppression techniques and innovative technologies to protect personnel and equipment.

Sood termed the project a historic milestone in the energy sector, both for Delhi and the country noting that the system sets a new benchmark in regulatory and technological ...
