
Portugal Energy Storage Power Station Bureau 4

How much money will Portugal spend on energy storage projects?

This included six projects from Spain's Iberdrola, which secured nearly EUR 20 million in public funding. Portugal's Ministry of Energy has announced that it has allocated EUR 100 million (\$104.2 million) to 43 energy storage projects which should be installed by the end of 2025.

How many projects were selected in Portugal's 2025 energy storage procurement?

A total of 43 projects were selected from 79 applications in Portugal's 2025 energy storage procurement. This included six projects from Spain's Iberdrola, which secured nearly EUR 20 million in public funding.

What does Portugal's energy storage tender mean for the energy transition?

Portugal's government has announced the outcome of an energy storage tender that will see the installation of 500 MW of energy storage capacity to support the country's energy transition. Energy storage battery. Photo by Anna Vasileva

Should energy storage be democratised in Portugal?

Energy storage is therefore essential if EU targets are to be met. Portugal's installed energy storage capacity is still predominantly based on hydro pumping, which currently stands at 4,164 GW year. However, this paradigm is about to change with the democratisation of energy storage solutions through wind and solar production.

A total of 43 projects were selected from 79 applications in Portugal's 2025 energy storage procurement. This included six projects from Spain's Iberdrola, which secured nearly ...

Why Lisbon's New Power Station Is Making Headlines a sunny afternoon in Lisbon, where wind turbines spin lazily and solar panels soak up rays. But what happens when the sun ...

These changes follow the blackout in the Iberian Peninsula on April 28, 2025, highlighting the need for energy storage to help keep the power grid stable and secure by ...

On the standalone side, the Casal da Corti;a facility in Leiria, developed by Infraventus Energy Storage is Portugal's first fully merchant large-scale battery using lithium ...

Portugal's government has announced the outcome of an energy storage tender that will see the installation of 500 MW of energy ...

Order n. 1859/2025 (Order) published on February 10 by the Portuguese energy ministerial authority (DGEG), established the procedures for licensing of electricity storage ...

Independent energy storage stations can meet the needs for energy storage by generators and for peak shaving and frequency regulation by power grids, expanding their ...

Portugal plans to hold an energy storage auction before January 2026 as part of a EUR400

million (\$462.2 million) initiative to enhance grid resilience following an April blackout.

This article briefly analyses the Portuguese regulatory framework for utility-scale energy storage technologies, in order to highlight the strategies that have been followed. A ...

Portugal plans to hold an energy storage auction before January 2026 as part of a EUR400 million (\$462.2 million) initiative to ...
