## Price of solar module carport

What is a solar carport?

Unlike traditional carports that simply offer shade and weather protection, solar carports serve the dual purpose of energy production and vehicle shelter. Solar carports function identically to traditional rooftop solar systems in terms of energy generation. The key components include:

How much does a 5 kW solar carport cost?

For a 5kW solar carport, you can expect to pay about \$20,500 before tax rebates, \$2,500 for the frame and about \$18,000 for the solar panels. You can expect to pay about \$14,350 for a 5 kW solar carport system installed after receiving tax rebates. A commercial solar carport costs \$3.45 per watt.

Does solarcarportsonline offer a flat roof carport?

Solarcarportsonline and our sister business Car Covers and Shelter can now offer any Skillion (flat roof) carport, Gable, Dutch Gable or Hip roof carport at remarkably low prices which are "Solar Ready" - strong enough to install or retro-fit solar panels on the roof - another Australian first!

Can PV panels be installed on a solar carport structure?

Yes, PV panels can be installed on a solar carport structure. Installing PV panels on a solar carport makes great use of an otherwise unproductive space at both the domestic and commercial level.
