
Sales of mobile energy storage containers with fast charging capabilities

What types of energy storage systems does sigenergy offer?

Sigenergy offers home battery storage, residential ESS, and commercial solar solutions.

Explore our innovative energy storage systems for sustainable power management.

What are the benefits of CCS DC fast charging?

Energy storage only: Providing flexible, off-grid power solutions. CCS DC fast charging:

Featuring dual 240kW CCS chargers, suitable for high-speed public and commercial EV

charging. Sustainable innovation: Utilises second-life EV battery packs, extending their lifespan by up to 25 years while reducing carbon footprint and costs.

What are the different types of energy storage options?

Scalable, Modular Energy Storage: Configurations range from 150kWh to 450kWh, with daisy-chaining options for extended capacity. Energy Storage Only - Providing flexible, off-grid power

solutions. CCS DC Fast Charging - Featuring dual 150kW CCS chargers, suitable for high-speed public and commercial EV charging.

Why should you choose a modular solar power container?

Go big with our modular design for easy additional solar power capacity. Customize your container according to various configurations, power outputs, and storage capacity according to your needs. Lower your environmental impact and achieve sustainability objectives by using clean, renewable solar energy.

Sigenergy offers home battery storage, residential ESS, and commercial solar solutions.

Explore our innovative energy storage systems for sustainable power management.

The intelligent charging cabinet. [Photo/thepaper.cn] Shanghai's first intelligent mobile facility for photovoltaic storage and charging became operational on Feb 6 in the city's ...

The rapid growth of electric vehicle (EV) ownership worldwide has created a significant opportunity for the mobile energy storage and charging market. According to the ...

The Mobile Energy Storage Truck, is a cutting-edge solution in the field of energy storage. With a large capacity of 2 MWh, this vehicle offers ample storage to meet the ...

Its Type-2 AC charging version offers up to five satellite stalls equipped with twin chargers. It provides scalable energy storage from 150kWh to 450kWh per unit and supports ...

The Mobile Energy Storage Truck, is a cutting-edge solution in the field of energy storage. With a large capacity of 2 MWh, this vehicle ...

The rapid growth of electric vehicle (EV) ownership worldwide has created a significant opportunity for the mobile energy storage and ...

The Charge Qube is a revolutionary rapidly deployable Mobile Battery Energy Storage System and Mobile Electric Vehicle Supply Equipment (Type-2 or CCS) designed to meet the diverse ...

A 500 MW / 2,000 MWh standalone BESS in Tongliao, Inner Mongolia, has begun commercial operation following a five-month construction period, reflecting China's ...

Fellten, a leader in battery pack manufacturing and energy storage innovation, today launched the Charge Qube - a modular Mobile BESS and EVSE.
