
Selling solar power systems in Stockholm

Who are the best solar installers in Sweden?

3. Solarwork Sweden AB (Stockholm) Solarwork is a Stockholm-based solar installer founded in 2016. The company offers residential and commercial solar installations with ongoing maintenance and monitoring services afterwards. Solarwork also offers the concept of Solar as a Service (SaaS).

Why is solar energy important in Sweden?

Increasing energy demand: Sweden's growing energy demand, coupled with the need to transition to clean and sustainable energy sources, presents substantial opportunities for the solar energy market. Solar power can play a vital role in meeting the increasing electricity needs of households, businesses, and industries.

Is solar power possible in Sweden?

In Stockholm, Sweden (latitude: 59.3287, longitude: 18.0717), solar power generation is feasible but varies significantly across different seasons. The average energy production per day for each kilowatt of installed solar capacity is as follows: 6.18 kWh in summer, 1.54 kWh in autumn, 0.51 kWh in winter, and 4.26 kWh in spring.

How to optimize solar generation in Stockholm?

Assuming you can modify the tilt angle of your solar PV panels throughout the year, you can optimize your solar generation in Stockholm, Sweden as follows: In Summer, set the angle of your panels to 42°; facing South. In Autumn, tilt panels to 61°; facing South for maximum generation.

The Sweden solar energy market refers to the industry involved in the production, installation, and maintenance of solar energy systems within the country's borders.
