# Solar Container 500kWh Customer Support

How to choose a 500 kW / 1075 kWh containerized energy storage system?

When choosing a 500 kW / 1075 kWh containerized energy storage system, you need to consider your application scenarios, equipment performance, system security, scalability, vendor reputation and many other factors. Ensure that the system you choose can meet your long-term needs and provide adequate support and service guarantees.

What is A 500KW Megatron battery storage system?

500kW MEGATRON - 20 foot Containerized Commercial Battery Energy Storage System designed to for On-Grid and Renewable Energy Projects.

Why should you choose a solar storage container?

Customize your container according to various configurations, power outputs, and storage capacity according to your needs. Lower your environmental impact and achieve sustainability objectives by using clean, renewable solar energy. Lower energy/maintenance costs ensure operational savings.

Why should you choose a modular solar power container?

Go big with our modular design for easy additional solar power capacity. Customize your container according to various configurations, power outputs, and storage capacity according to your needs. Lower your environmental impact and achieve sustainability objectives by using clean, renewable solar energy.
