
Solar Panel solar Panel Guarantee

What are solar panel warranties?

Let's break down solar panel warranties, different levels of coverage and what you can expect to be protected from. Solar panel protection comes in two levels: manufacturer warranties covering product defects and energy output, including degradation, and installer warranties covering workmanship and installation quality.

How do I get a solar panel warranty?

Generally, the most robust warranties are obtained by hiring installation companies certified by the solar brands they represent. Alternatively, long warranties can also be secured from solar manufacturers that provide their own installation services. What Is Not Covered by a Solar Panel Warranty?

What makes a good solar panel performance warranty?

An ideal solar panel performance warranty should include the following conditions: Certain solar manufacturers may even guarantee a degradation rate as low as 0.25% per year, coupled with a performance warranty period of up to 30 years.

How long does a solar panel warranty last?

A standard solar panel warranty should come with at least 10 years of protection, though many premium options now offer 25 or even 30+ years of coverage. Most solar panel warranties won't reimburse for labor costs associated with installing new equipment or shipping fees for replacement parts.
