How big is the Solar Photovoltaic Glass market?

Image © Mordor Intelligence. Reuse requires attribution under CC BY 4.0. The solar photovoltaic glass market size reached 32.10 million tons in 2025 and is forecast to reach 74.75 million tons by 2030, advancing at an 18.42% CAGR between 2025 and 2030.

What is the market size of Solar Photovoltaic Glass in 2024?

By manufacturing process, float lines delivered 68% of 2024 volume; rolled glass is forecast to post a 19.70% CAGR to 2030. By solar technology, crystalline silicon held 91% share of the solar photovoltaic glass market size in 2024, whereas CIGS cells are expected to grow at 23.61% CAGR between 2025 and 2030.

How will the Solar Photovoltaic Glass market continue to grow?

Competitive strategies range from Chinese producers expanding commodity capacity to Western incumbents investing in circularity, low-carbon furnaces, and specialty coatings. These shifts together position the solar photovoltaic glass market for resilient growth throughout the decade.

What is a solar glass substrate?

Manufacturers of crystalline silicon solar modules apply glass substrates on the front side of the solar modules. This front glass will either be a patterned glass or a glass with anti-reflective coating (AR). As in all other glass manufacturing processes, solar glass substrates are subject to defects during production.

This part of GB/T 30984 specifies terms & definitions, classification & regular specification, technical requirements, test method, inspection rules and package, sign, ...

As solar technology continues to advance, solar module glass has become one of the most critical components determining the performance, durability, and long-term reliability ...

The global market for photovoltaic (PV) glass coatings is experiencing robust growth, driven by increasing solar energy adoption worldwide. Current market analysis indicates that the PV ...

Solar control glass which is one of the crucial components of PV panels is largely employed for architectural and automotive windows ...

Solar Glass Manufacturing Plant Setup Report 2025 Industry Trends, Cost And Economics Details. Solar glass is a specially designed glass used in photovoltaic applications ...

Solar Energy Standards The Solar Energy industry relies on standardization for many things, including testing energy conversion, reflectance or ...

Solar Photovoltaic Glass Market Analysis by Mordor Intelligence The solar photovoltaic glass market size reached 32.10 ...

Solar glass is a specialized low-iron, tempered soda-lime silicate glass, often enhanced with an anti-reflective coating. This combination delivers ultra-high light transmittance, superior ...

Unlock detailed market insights on the Solar Glass Market, anticipated to grow from USD 9.65 billion in 2024 to USD 18.29 billion by 2033, maintaining a CAGR of 7.35%. The analysis ...

As the global demand for clean energy continues to rise, China has solidified its position as a leader in photovoltaic (PV) glass ...
