
Solar module materials and prices

When will BC module prices be added in Europe?

In Europe, the public pricing for BC modules (residential and C&I) will be added from June 2025. InfoLink Consulting provides weekly updates on PV spot prices, covering module price, cell price, wafer price, and polysilicon price. Learn about photovoltaic panel price trends and solar panel costs with our comprehensive market analysis.

How are PV production costs modeled?

The costs of materials, equipment, facilities, energy, and labor associated with each step in the production process are individually modeled. Input data for this analysis method are collected through primary interviews with PV manufacturers and material and equipment suppliers.

How much do Topcon modules cost?

On a forward-looking basis, OPIS is assessing the cost of TOPCon modules in the first quarter of 2026 at \$0.276/W, and Mono PERC modules in the same period at \$0.266/W. Market sources continue to see price quotes for utility scale TOPCon modules DDP U.S. from Laos and Indonesia between \$0.21 and \$0.24/W.

Why are solar module prices rising in Q2 2025?

The recent surge in module prices is driven by expectations of an installation rushup to the first half of Q2 2025, following two key solar policy changes announced by the National Development and Reform Commission (NDRC).

It is the first solar materials price report to use an assessment methodology that follows IOSCO requirements for fair and transparent pricing. Gain access to the only published Solar Modules
