## **Solar power storage in China in Puerto-Rico**

Does Puerto Rico have solar?

The Puerto Rico Energy Public Policy Act of 2019 codified the role of solar and storage in the island's energy system and set a 100% renewable energy target by 2050, with interim targets on the way. Today, R&#250;a-Jovet said there are about 175,000 households with solar, and at least 160,000 of those also have storage.

Does Puerto Rico have a resilient energy system?

"That kind of shifted, in people's minds, the thinking on energy and the value of resiliency, and the importance of just basic energy," R&#250;a-Jovet said. The Puerto Rico Energy Public Policy Act of 2019 codified the role of solar and storage in the island's energy system and set a 100% renewable energy target by 2050, with interim targets on the way.

Are solar and storage a necessity in Puerto Rico?

R&#250;a-Jovet said blackouts have become so routine that solar and storage are now a necessity in Puerto Rico and demand is unlikely to be slowed by changes in federal policy -- some of which were enacted through the tax code, which has limited impact on the territory.

Did Puerto Rico have a solar industry before Hurricanes Irma & Maria?

Before Hurricanes Irma and Maria devastated Puerto Rico in 2017, the island had a modest solar industry, driven largely by the desire to save money on power bills through net metering, and "storage was not a thing," R&#250;a-Jovet said. What followed the deadly storms was the longest blackout in American history.
