## Taipei 21700 battery cell

What is a 21700 battery?

A 21700 battery is a high-capacity, rechargeable lithium-ion cell designed for superior energy efficiency and performance. With a standard size of 21mm in diameter and 70mm in length, these batteries were developed as a next-generation improvement over 18650 cells, offering increased power output, extended runtime, and higher energy density.

How big is a 21700 cell?

The 21700 cell stands out due to its standardized dimensions of 21mm in diameter and 70mm in length. These measurements make it larger than the widely used 18650 cell, which measures 18mm by 65mm. This increase in size allows the 21700 to deliver higher energy storage and improved performance.

What is an unprotected 21700 battery?

Unprotected 21700 Batteries: Designed for battery packs or high-performance applications where external battery management systems (BMS) handle protection. 21700 batteries are becoming the industry standard for devices requiring longer runtime and more power. Some common applications include:

How much power does a 21700 mAh battery hold?

You don't really notice the size increase, but you definitely feel the performance upgrade. At its core, a single 21700 cell usually holds 4000-5000 mAh with a nominal voltage of 3.6-3.7 V. Fully charged, it hits 4.2 V, and cutoff usually happens around 3.0 V.

The Batemo Cell Model of the lithium-ion battery cell Ampace 21700A is a high-precision, physical cell model with global validity. As a ...

A 21700 battery is a high-capacity, rechargeable lithium-ion cell designed for superior energy efficiency and performance. With a standard size of ...

Molicel, the Taiwan-based manufacturer known for producing some of the most trusted high-power lithium-ion cells, is expanding its ...

The 21700 battery, with 21mm diameter and 70mm length, offers 3.7V voltage and up to 5,000mAh capacity, making it ideal for high ...

The Molicel Taiwan 21700 P42A/P45B lithium-ion batteries are high-capacity cylindrical cells engineered for high-rate discharge applications. Designed with metallic gray aluminum alloy ...

Molicel's debut at CES 2024 showcased the innovative leading cell technology and roadmap of ultra-high ...

Original Taiwan Magic P50b 5000mAh 60A 21700 Low Temperature Lithium Ion Cell Molicel Premium Lithium-Ion Battery, Find Details and Price about Molicel 21700 Battery ...

---

Taiwan Molicel Inr21700 P42A 4200mAh Ultra-Low Temperature Continuous 45A Discharge Li-ion 21700 Battery Cell, Find Details and Price about Molicel Molicel P42A from ...

We'll talk about different types of 21700 battery, features, charging, lifespans, and our recommendations for ...

Molicel is a global leader in advanced cylindrical lithium-ion battery technology, powering industries with ultra-high performance and reliable energy solutions.
