
Tips for loading solar modules into containers

How do you mount solar panels to a container?

For side-mount type panels, attach brackets to the container walls by bolting and mount the panels onto these brackets. All glaringly obvious, those panels should now be skewed for maximum sun exposure. Connect the solar panels to the inverter and the electrical cabinet according to the manufacturer's instructions.

Can you carry a solar module alone?

Do not carry a module alone; always use two people to lift and carry. The LONGi team of industry veterans and experts is excited to partner with you for success from arrival to installation with LONGi's PV solar modules.
