# Uninterruptible power supply equipment for Cote d'Ivoire Hospital

What is an uninterrupted power supply?

Uninterruptible power supplies keep a steady current flowing to maintain performance over time. In addition to diagnostic equipment, UPS systems provide battery backup for life-sustaining medical equipment in the event of an emergency.

What is a Cyberpower medical grade UPS system?

CyberPower Medical Grade UPS systems have been designed to power and protect sensitive equipment in hospitals and healthcare facilities. Each medical UPS is UL 60601-1 tested to provide standby power in patient-care settings and comes with hospital-grade plugs and hospital-grade outlets, and a built-in isolation transformer.

Why do doctors need uninterrupted power supplies?

Doctors, nurses and patients rely on the critical information these sensitive machines provide and often cannot wait for them to bounce back after a power surge or outage. Uninterruptible power supplies keep a steady current flowing to maintain performance over time.
