
Warranty for 10kW Energy Storage Containers for Data Centers

How long does a battery warranty last?

If it can't be judged by the above two information, the warranty starting date shall be 6 months after the product was manufactured. SIGENERGY warrants that the battery system retains either seventy percent (70%) of Usable Energy for ten (10) years, or for a Minimum Through Output Energy which is calculated from the earlier of installation date.

What is the warranty period provided by sigenergy?

Besides the above product,for vulnerable part such as strips light in decorative cover,the warranty period provided by SIGENERGY is 2 years. The date of product be installed,activated and registered on site.

Does sigenergy offer a warranty on the inverter and battery?

To provide a ten-year limited warrantyon the inverter and battery,SIGENERGY will update your equipment with a remote firmware upgrade from time to time. These remote upgrades may briefly disrupt the operation of the appliance.
