
Which Majuro folding container is the best to use

What are the best food storage containers?

The best containers help keep your food fresh, don't leak when traveling and hold up against stains and other life happenings. The Good Housekeeping Institute Kitchen Appliances and Innovation Lab tested more than 80 food storage containers over the years from leading brands such as Rubbermaid, Pyrex, OXO and more.

What is a Cambro sourdough container?

A Cambro container is a square plastic, straight sided container with volume measurements on the side. It also has a tight fitting lid. The magic lies in the straight sides of the container which allows you to easily see when your dough has doubled and thus when bulk fermentation is finished and it's time to shape your sourdough.

What is the best container for making sourdough bread?

I have tried a number of sizes to try and find the best container for making sourdough bread. I like using square cambro containers, but you could also use round ones. I recommend using a 4Q Cambro container for sourdough with 500g of flour and a 6Q Cambro container for dough with 1000g of flour.

We tested the best food storage containers, from ones that are airtight and leakproof to those that are collapsible, made of glass, plastic and more.
